## **TANZNEID WORLD TOUR (EU SUMMER FESTIVALS) PHOTO POLICIES 2026**

Below are our photo policies for local media and photographers who will be shooting our set, which are quite simple:

- 1] No Flash Photography**
- 2] No Video (without prior approval from Tour Management)**
- 3] Only Allowed In The Barricade Area For The First 3 Songs**
- 4] No Photographers On Stage Under Any Circumstances**

Please be aware that Electric Callboy's set will contain the use of pyrotechnics and confetti, which are mainly located on the downstage edge of the stage. While you are perfectly safe in the barricade, be aware that the first 3 songs will contain use of these effects and they may be surprising if you are not expecting it.

**IMPORTANT:** The first song of the set has an extremely loud concussion blast at the downbeat of the song after the intro. Please wear hearing protection.

After the show, and once you have edited photos, please send them to the following e-mail addresses (this is not for approval, we just like to take the time to see the photos that photographers have taken):

electriccallboytm@gmail.com  
info@exact-management.de

If you have any issues on the day of the show or have any additional questions, please do not hesitate to reach out to Electric Callboy Tour Management or Festival Production.
